EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance: After a very careful study of applicant's response submitted on February 3, 2006, along with the supplemental response submitted on February 16, 2006, the Examiner concludes that applicant's claimed wavelength selective manipulation device (and method) is neither disclosed nor reasonably suggested by the prior art. It is now clear, particularly in view of the amended clarifying claim language and applicant's explanatory remarks, that the flattened focal plane of Weaver et al (the closest prior art of record) is completely different from the elongation of the optical intensity profile of the focused image. Applicant's claimed device (and method) forms elongated spatially separated wavelength signals in this manner, something that Weaver et al does not (and cannot) do. The Examiner therefore agrees that the previously relied-on Weaver et al reference neither anticipates nor renders obvious applicant's claimed device (and method). All previously applied rejections and objections have been overcome by applicant's responses. Claims 1-25 herein are thus allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning the merits of this communication should be directed to Examiner John D. Lee at telephone number (571) 272-2351. The Examiner's normal work schedule is Tuesday through Friday, 6:30 AM to 5:00 PM. Any inquiry of a general or clerical nature (i.e. a
